

Sri GurubhyO NamahA!

Greetings and wishes from all at 2024 Sruti Board to all the rasikAs!

As we embark on our journey this year, we look forward to an elevated experience of education, enlightenment, engagement and entertainment. Sruti, an elite institution, has emerged as a key player in the cultural scene in the North-East USA, providing patronage to Asian Indian performing art forms. Kudos and praise received from our performing artists and our allies in the musical space are testimonies to the positive impact Sruti has had on the community. This organization is extremely proud of its accomplishments over the past several years, including the pandemic times and I am thrilled to explore what the future holds.

Having observed this organization and having been involved closely over the past few years, I, along with the current board, can confidently say that we are standing on giants' shoulders to be able to look ahead and successfully carry the torch forward.

I want to thank the entire Sruti Board for their whole-hearted support and encouragement. I am honored to work with each one of them. With their rich experience and versatility, I am certain that 2024 will also be a banner year.

As we look ahead, we continue to focus on bringing excellent quality music and dance to the community and supporting our artists. It is my privilege to serve as President for Sruti in 2024.

Thank you for your continued support. Together, we can create a positive influence in the world with music and dance. Please stay tuned, spread the good word and continue to provide your valuable feedback.

Looking forward to an inspiring year ahead!

With gratitude
Lata Suresh
